

How to Use Google Chromecast

I wrote this document as a requirement for a simple instructions based project for my technical communications class. I chose to write about Google Chromecast because I had recently bought one and felt it would be an interesting subject matter. I was also familiar with the set up process to feel comfortable writing about it.

The instructions follow a straight-forward procedure but it's important not to indirectly skip over any steps, and to ensure that your readers can carry out the task at hand.

This assignment was interesting because it made me focus on the needs of the reader and how a task could be over-complicated by too much information, or frustrating because of too little information. It was important to strike a balance and give the reader the knowledge to carry out the set up process.
